Wood-house. 1669.

A Prognostication, for the year of our Lord God, 1669.

Being the first from *Bissextile*, or Leap-Year, and from the Worlds Creation, 5632.

Wherein is contained a brief description of the four Quarters of the Year; excellent Notes of Husbandry and Gardning, for every moneth in the Year.

With the Names of all the Principal Fayrs, And a Description of the High-Ways in *England* and *Wales*.

BY

JOHN WOOD-HOUSE,

Philomath.

LONDON,
Printed by *J. Macock* for the Company of Stationers, 1669.

When you would plant or graft, consider where the wind bloweth; if it be in the South, it is very good for that purpose, but if it be in the North or East, it is not good.

It is good to plant or graft generally the Moon increasing in these signs, Taurus or Aquarius in the beginning of the Spring, or latter end of Harvest.

Plant trees for continuance, when the Moon is in Taurus, Leo, or Aquarius.

Cut timber to have it sound, in December, or January, in the wane of the Moon in Aquarius or Pisces.

Prune trees and pull off the moss in the month of January.

Plash hedges and lop trees for fuel, that the heads may the sooner grow again, when the Moon is in Aries or Libra, and in her increase.

Set young quick-sets, from September to March.

Remove young trees in the last quarter of the Moon, when she is in Aries, Libra, Scorpio: and in these months, September, November, February.

Set vines in February, March, or September, specially the Moon in Aries, Libra, Scorpio, in her increase.

Set Rose-trees in the midst of February, when the Moon increaseth.

Cut or prune trees in March or April, the Moon in Taurus, Virgo, or Capricorn.

Gather fruit, as Apples, Pears, and the like, at the full of the Moon, in the afternoon, the weather being fair and dry.

Cut down Hay presently after the full of the Moon.

Dung ground to prevent the growing of weeds, the Moon decreasing.

Sow Carret-seeds about the end of February or the beginning of March, the Moon increasing.

Sow Onions and Leeks in February or March, at the wane of the Moon.

Sow Cucumbers and Melons in February, March, or June, in a hot and a fair day.

Excellent Notes of Husbandry and Gardning, for every Moneth in the Year.

IN January cut down Timber (and it ſhall not ſhink nor be eaten with worms) in the laſt quarter of the Moon ſet or ſowe Kernels, and Berries of Way-trees, Privet, and Box. Set Quick-ſets, Roſe-trees, Peaches, Filberds and Plum-trees; and remove trees if the froſt be not too hard, prune and lop them before full Moon: ſowe or ſet Beans and Peaſe, and dung land in the laſt quarter: geld Cattel to fear, fallow land for wheat and Rye: Trench Gardens with dung, and remove Bees, and for your own health, keep your body warm, let good and wholeſom diet be your Phiſitian, moderate exerciſe and labour your ſawce to raiſe appetite.

February.

NOw ſowe all ſorts of Peaſe and Beans, and other Pulſe, ſowe Muſtard-ſeed, caſt up ditches, ſet and plant Vines, Hops, Gooſeberries, and any fruit that growes upon bulhes, prune and trim all ſorts of fruit-trees from moſs, canker, and all ſuperfluous branches. Graft in the latter end of the moneth, ſowe Onyons in cold ſtiff land: Take heed of cold, forbear flegmatick meats.

March.

IN the new of the Moon (the wind any but Eaſt or South) graft Pear, Marden, or Apple-trees, make an end of ſowing all manner of Pulſe, and begin to ſowe Oats, Barley, Parſenips, Onyons, Carrets,

Carrets, Cucumbers, Melons, and all kind of Pot-herbs, slip Artichokes and Sage, geld Lambs, let blood according to strength and necessity, the sign and weather also being fit (but take advice of the learned Physitian) look what disease cannot be cured in the spring time by physicks, will hardly be cured all the year after.

April.

Sow Barley, Hemp, and Flax, Pole Hops, set and sowe all kinde of Garden herbs, open Hives, and let Bees labour for their living, let Tanners now provide them for Bark, and all good Housewifes look to their Dairies; bleed and purge with advice those that are troubled with aches, or the gout, let them go to the Baths in this or either of the months.

May.

Sow Barly on all light lands and bearing grounds, and likewise Hemp and Flax, and all manner of fine seeds and herbs, take Lambs from their Dams, fit land for Wheat and Rye, leave lopping of Trees, reach Hops to climb, but cut off the superfluous branches, Rise early, walk the fields, especially by running streams, Sage and sweet Butter is now an excellent breakfast, Sage and clarified Whey, as also Scurvy-grass-Ale, and Wormwood Wein, are wholsom drinks to be drunk fasting.

June.

Shear sheep, bring home fuel, weed Corn and Gardens, set Rosemary, Carnations, and Gilliflowers, sowe Lettuce and Radish-seed three or four days after the full, for then they will not run to seed, make or carry Sand, Lime, Marl, and Manure, of what kind soever best fitting your land, cut neither hedge nor Tree in this and the two next moneths, beware of great thirst, use thin and light Diet, moderate exercise, and chaste thoughts.

July.

APply making and getting in of hay, pull hemp that is ripe, gather Garden Beans, get Rue, and Mozmwood, and Gaul to strew on your flozs, to destroy Moths and Fleas, fence your Copses, use moderate diet, take heed of great thirst, for nothing bringeth the Pestilence, or pestilent diseases sooner, then extream thirst, and fervent heats, and cold taken also suddenly upon them: Take no physick, bleed not but upon all violent occasions.

Labour in Summer, take pains with the Ant,
Else in the VVinter live poor, and in want.

August.

FOllow close your Corn-harvest, sowe Winter herbs in the new of the Moon, gather Garden-seeds, mowe Barly and Oats, gather Summer fruits, refrain from sleeping in the day time after meat, avoid riot and excess.

September.

IN the beginning of this moneth, and end of the former, gather Hops when they wax brown, the weather being fair, and no dew on the ground, kill Bees, make Verjuice, sowe Wheat and Rye, remove and set all slips of flowers between the two Lady days, put Swine to Mast, remove Trees every new Moon, from September until February, especially in the new of the Moon, the weather fair and warm, the wind South or West: use Physick moderately, forbear fruits too pleasant, or rotten, shun riot, and excess of diet.

October.

SOw Wheat and Rye, the sooner the better, for fear of rain, set Acorns and Nuts, gather Winter fruit, the weather dry, in the afternoon, and in the wane of

the

the Moon. Cut Rose-trees, if you desire to have store of Roses, do this once in two years, refuse not any needful phisick at the hands of the learned, and use all moderate sports to revive the vital spirits to the service of God only.

November.

MAke Vault, kill Hogs, trench Gardens with dung, set Crab-tree stocks, sowe Wheat and Rye in exceeding hot sandy grounds, cut down Timber for Ploughs, Carts, and other implements in husbandry, use wholsome meat and drink, with due exercise to preserve health.

December.

In this and the next moneth, cut down Timber in the last quarter of the Moon, uncover the roots of fruit-trees, set Beans and Pease, cover all your best flowers and herbs from frosts and storms, with old warm horse-dung, look well to your cattel, water and keep moist your medows, let horses blood, and to conclude, drink good Wine and strong drink, keep thy body warm clad, thy house warm and dry, banish all cares from thy heart, and feast thy poor neighbours, rejoycing that God sent his only begotten Son about this time into the world, to save all such that lay hold on him with a true and lively faith.

Neque is qui plantat, neque is qui rigat,
Sed Deus qui dat Incrementum.
